PROJECTS

Growz
Empowering MSMEs with AI-driven business intelligence and smarter decision-making.
- Growz is an AI-powered MSME business management platform designed to help small and medium-sized businesses manage their operations, analyze business performance, and make smarter decisions. It provides valuable business insights, data-driven recommendations, and intelligent assistance to help business owners understand sales, track performance, identify opportunities, and grow their businesses efficiently.

OptHire
AI-Powered Recruitment and Candidate Assessment Platform
- Developed an AI-powered recruitment platform designed to automate key stages of hiring, including resume parsing, candidate matching, ATS scoring, skill-gap analysis, interview question generation, and candidate evaluation using specialized AI agents.

Sujala RO Purifiers
E-Commerce Website for Water Purification Products
- Developed an e-commerce website for a water purification business, featuring product listings, user authentication, shopping cart functionality, and WhatsApp-based ordering. Implemented an admin dashboard for product and order management, with Firebase for backend services and Cloudinary for product image uploads.
